PARENTS' DAY
NEXT FRIDAY

Interesting Program Being prepared by Faculty of Earlinton School.

SCHOOL SPIRIT AND
SCHOOL SPORTS GROWING.

Another interesting program is being arranged by the faculty of the Earlinton Graded and High School, to be presented on Friday afternoon next, to the parents of school children and all others who are interested in education in Earlinton. Patrons of the school will be notified by printed invitations as before. The details of the day's program are being worked out and will be ready for the interest and entertainment of all who attend the school on that day. Since last "Parents' Day" the school has developed along certain lines, including music and drawing, which are always interesting, and these features are likely to be in evidence on Friday. The school spirit is excellent and the attendance is improving a little, after a temporary falling off in some of the grades on account of whooping cough and other illnesses in the community. Teams of basketball have been organized, both among the boys and girls, and these are practicing for real contests later. One interesting game was played with the Earlinton Athletic Club team recently, the result of which was reported in *The Bee*. Other games will follow later. All patrons of the school should attend these parents' meetings.

Prof. Dudley, principal of the school, announces that an effort is also being made to add 200 volumes to the school library through birthday offerings in which the children are becoming much interested.

R. D. Smith Passes Away.

R. D. Smith who lived in country about a mile and a half west of this place died Friday morning about one o'clock after a lingering illness. Mr. Smith was a well known farmer and had many friends in his neighborhood. He was a brother-in-law of Mrs. Albert Toombs, of this city. He leaves a wife and two children to mourn his loss. Also two sisters and a brother in Robertson Co., Tenn. The funeral took place at the Pleasant View burying grounds at 5:30 Friday afternoon, the ceremony was conducted by the Masonic Lodge.

Fire Destroys Residence.

The residence of Jim H. Miller, of the Greasy Creek country, caught fire while the owner and his two children were away from home and when they returned they found the home in ashes.

Mr. Miller was in Madisonville spending the day and his two little daughters were visiting neighbors. In the afternoon he received a telephone call notifying him that his house and everything had burned to the ground and that the structure was beyond saving when the fire was discovered by a passing farmer.

Small Blaze.

The shingles near the kitchen flue on the house occupied by J. H. Corbitt caught fire Saturday about 11 o'clock and caused some excitement. The alarm was turned in and the fire department was soon on the ground. The fire was extinguished with little damage.

MOTHER'S WORK.

Mother hasn't much to do
To keep from growing lonely;
Simply lives the long day through
At little duties only.

Gets a breakfast list for eight,
While for sleep she wishes;
Two for school must not be late—
Then she does the dishes.

Then she sweeps the sitting room,
Dining room and stairway;
Wields a duster and a broom
Till things shine in fair way.

Then she has to dress the three
Small kids who've been sleeping—
"Dick" and Charlotte, Marjorie—
Then more dusting, sweeping.

Then she comb's three bouled heads
And washes three bright faces;
Makes a half dozen beds;
Put things in their places.

Then the lunch for those from school;
Then the chores forgotten;
Then her needle and a spool
Of stout darning cotton.

Dining dishes washed and dried,
Then the porches mopping;
Several patches well applied,
Then a bit of shopping.

Hungry eight to feed at night—
That's the regular number—
Coffee, sausage, biscuits light—
Then the "kids" to slumber.

Then, the supper dishes done,
Her easy day is ended,
Save size seat one by one,
All the clothes are mended.

Sews the missing buttons back,
Mends the little dresses;
Wipes out every muddy track,
That her sight distresses.

Gets the kitchen apt—"O. K."
For the early morning;
Winds the clock so it will say
Lead its early warning.

Then, if nothing else to do,
Tustine she'll get crooning
Just to waste an hour or two
In not needed sleeping.

Mother hasn't much to do—
That's how people view it—
Little work the whole day through,
Eighteen hours to do it.

But pa—he has to work like sin
In his important station,
Eight hours—then he is all in,
And tired as creation!

GEO. KING HAS
NARROW ESCAPE

Shot at Saturday Night by Chicken Thief in Madisonville.

WAS GOING OUT TO GET
COAL ABOUT MIDNIGHT.

Geo. King had a thrilling and dangerous experience with a chicken thief about midnight Saturday, which he will remember. This would-be thief evidently thought he was in a tight place and took no chance on being captured. One shot was fired by the thief at a distance of but 25 feet, striking an empty coal bucket in Mr. King's hand and tearing in a ugly hole in it. The thief escaped. It happened this way. Mr. King remained at his drugstore here until the midnight train Saturday. When he reached home at Madisonville he found his furnace in cellar needed more coal to keep over night and started to coal house with a bucket in each hand. As he descended the steps from his back porch he noticed the profile of a man emerging from the coal house, 25 feet away, outlined against the whitewashed door. Mr. King kept going and called out to the man: "What are you doing there?" The answer was a pistol shot and Mr. King being unarmed and discreet, retreated into the house. The thief removed himself before Mr. King could get his gun and reënter a window. The trouble was that the thief was in an enclosure he could not get out of without passing by the man of the house and he naturally had but the one thought—that Mr. King was coming for him. Mr. King thought until the next morning that the thief had shot just to bluff him, but the coal bucket told a different story.

OTHO LONG LOSES LIFE

Jumped on Loaded Tulp at Fox Run Mine and Falls Under

NECK BROKEN, DIES INSTANTLY
VERDICT BLAME DECEASED.

Otho Long, aged twenty-four and unmarried, met a fatal accident Friday morning when he jumped on the front end of a loaded trip coming down incline at New No. 11, at Fox Run mines, and was thrown under the moving trip and instantly killed. His neck was broken, spine dislocated and one leg broken. Corner Stevens was in that part of the country on another case and was on the scene within a short time after the accident. The verdict was to the effect that the deceased met his death while doing something outside of the duties of the place he filled at the mines. His duties are said to have been to wait till the trip came to a full stop at the bottom of the incline and then hitch his mule to the cars and haul them to the tippie. The testimony at the inquest showed that he went to meet the "trip" and jumped on the front for a ride, one witness reporting that he said, "watch me catch this wild locomotive." The deceased was a brother of Luther and Jim Long and lived with and was the support of his mother and invalid father. He had not this time been long employed there, but had in previous years worked at the same mine. This is said to be the first time in thirty five years that a man has been killed outright at or in the St. Charles mines.

IMPROVED ORDER
REDMEN WORSHIP

Special Memorial Services Held at the Methodist Church.

Improved Order of Redmen, of Earlinton, worshipped in a body Sunday morning at the M. E. Church, South, and enjoyed a memorial sermon by Rev. Brandon. The pulpit was beautifully decorated with cut flowers, roses, carnations, etc., which were sent in by the Lodge committee on arrangements for the occasion. Some special music was rendered by the choir appropriate to the service. It has come to be a custom with several of the benevolent orders here to worship in church in a body occasionally. There was a fine and representative body in attendance Sunday.

Careful George.
"I had a letter from George this morning. He said his mother had accidentally broken her arm."
"George is always so careful. Many a young man would have left out the word 'accidentally,' leaving you to infer that she had broken it purposely."

Miss Alice Miller in Japanese Typhoon
The October number of the Tokyo Christian, published at Tokyo, Japan, tells of a typhoon which wrecked the cottage of Mr. Cunningham, editor of that publication, and forced the Cunninghams, Miss Alice Miller and other occupants of the cottage to vacate, each time at night. Miss Miller spent the summer with the Cunninghams in their cottage at Kanizawa. The cottage was to be torn down and reconstructed on a new lot, because of the flood damage.

five year lease on the building lately occupied by C. P. Smith's department store and will move the combined Hustler and Journal plants to this building in the near future. One of the store rooms down stairs at the new quarters will be used as the office rooms upstairs will be used as living rooms or offices.

THE LITTLE PAPER.

When the evening shade is falling
At the ending of the day,
And a feller sets a smoking
At his little pipe of clay
There's nothing doing him good
Be his fortune up or down
As the little country paper
From his old home town.

It's not a thing of beauty,
And it's type not always clean,
But it struts about set the temper
When one is feeling mean.
It takes the wrinkles off the face
And brushes off the frown.
The little country paper
From the old home town.

It tells all about the families,
And all the folks you know,
How the mayor of Pamplin Oates
Said the steps would grow,
And it keeps a fellow posted,
About who is up and who is down,
That little country paper
From the old home town.

Now I like to read the families
And the other pages too,
The latest books and novels
Like other people do,
But when I want some reading
That will amuse away a town,
I want the little paper
From my home town.

Newspaper as Text Book.

The plan of making newspapers a topic for study in the public schools might be extended with good results, says the Cleveland Plain Dealer. However well grounded one may be in ancient language and history, he cannot be called educated unless he knows what is going on in the wide world from day to day and is able intelligently to interpret contemporary movements. If such study and observation could be left safely to the home the schools might ignore them. But, unfortunately, such a delegation of responsibility is fraught with danger.

Newspapers, their manifold errors notwithstanding, are an educative agency whose power is not always fully appreciated, either by the publishers or by the public. It is well occasionally to recall their possibilities in this direction. Schools might profitably make more liberal use of the best newspapers of the day.

THERE IS A REASON

Why it pays to advertise in the SEMI-WEEKLY BEE:
It reaches a large number of wage earners who take no other paper.

It has an almost exclusive circulation in a community where \$50,000.00 in wages is paid out each month.

It is read by hundreds of people who buy what they want and who have money to pay for what they buy.

The only way to get your advertisement before the people of Earlington, Morgans Gap, St. Charles and immediate vicinity is through the medium of the Earlington Bee. A hint to the wise is sufficiency.

Pope once said "For forms of government let fools contest, What's best is best administered is best." Changing forms of Government or political parties will not better conditions unless honesty, fair dealing and patriotism take the place of old abuses. As is only too evident political corruption can exist in all parties and in all forms of government. Whatever the abuses the ultimate remedy rests with the people. They have the power, all that is needed is to use that power wisely.

Not every boy can be a rich man or a great one, but everyone can be a gentleman. A boy with gentlemanly manners, who is trustworthy and honest and does his very best every day, will gain the attention and confidence of men and will be given paying and responsible positions as soon as he is old enough to fill them. It is right and proper that they should. Boys will never be boys but once is and old and true saying, but to have fun is not altogether what boys are made for. Boys are of value chiefly to make men, good for something in the world. Character like a house must have a good foundation and a boy with a good character will make a man that is worth something to himself and his fellow man. The very foundation stones of a good character are reverence for God, respect for old age and obedience to parents.

Mrs. Berry Sugg, of Madisonville, was in town Friday.

How to Cure Chronic Colds and Bronchitis

Bluevale, Ont., May 4, 1910.
"I was sick for two years with a chronic cold and bronchitis and a consequent run-down condition. I received no benefit from doctors, and had to give up work. VINOL was recommended and from the second bottle I commenced to improve. I gained in weight and strength, my cold and bronchial trouble disappeared, and I am at work again. I want to recommend VINOL to anyone who is in need of such a medicine."—THOMAS HIGGINS.
It is the combined action of the curative elements of the cold liver, aided by the blood making and strength creating properties of tonic iron contained in VINOL which makes it so successful in curing stubborn colds and bronchitis. VINOL is a constitutional remedy for chronic coughs, colds, bronchitis and pulmonary troubles, not a palliative like cough syrups. Try a bottle of VINOL. If you don't think it helped you, we will return your money.

NO CHANCE.

Mary had a little hat—
But there! I'm really grieved,
There's no use finishing the poem,
It will not be believed.
—Harper's Bazar.

But we can make a little guess
And come within a mile:
When Mary had that little hat
Big ones were not in style.
—Springfield Union.

Or maybe this thought will explain
About that "little hat":
It only seemed small when compared
With Mary's fifty "rat."

Mary had a little hat
The smallest hat in town
But the feathers she had on it
Would sweep the cob webs down.

Something New for the Boys.

"The Boy Scouts of America" is a new organization for boys between the ages of 12 and 18 years. It was originated by the well-known American, Ernest Thompson Seton, in conjunction with the English general Sir Robert Baden Powell, and it bids fair to become as popular and to be as serviceable as any method yet devised, looking to the uplift of our boys.

Mr. H. A. Fabra, who is deeply interested, and is at all times ready to do all that he can for the boys, has been in correspondence for some time with the main office in New York City, and he is so impressed with this movement that he proposes to undertake the organization of a troop of Boy Scouts here. He has been appointed official Scout Master for Falmouth and vicinity, and assembled the boys at his Fountain Annex on Friday evening, November 4, for organization.

The purpose of the Boy Scouts is to hold and develop the boy by means of all these exercises dear to a lad's heart, and capable of being grouped under the term "scout craft." For the winter months—nature study, telegraphy, signaling by Morse and Myer codes, Indian clubs, fencing, boxing, learning the simple rules of first aid to the injured, manual training, etc. During spring and summer months—camping and a study of camp craft, tracking after the Indians, boating, riding, photography, etc.

Before becoming a "tenderfoot," the first stage in scout craft, each boy must pass an examination on the following points: Knowledge of the scout's law, signs and salutes, knowledge of the origin and composition of the National flag and how to fly it, and must demonstrate his ability to tie four kinds of knots, and must take the following obligation: "On my honor I promise that I will do my best. 1st—To do my duty to my God and my country. 2nd—To help other people at all times. 3rd—To obey the Scout law."

Mr. Fabra asks that parents, and all others who realize the importance of diverting the minds of our boys to something higher, better, cleaner than the things which by nature get possession of them if opportunities are withheld, will give him their moral support in his effort and maintain an organization which may mean much for the boy, incidentally something to ward the status of the future citizenship of our state and nation.

Miss Laura Boyd, of Crofton, who has been visiting her sister, Mrs. T. Tweedie, of this city, has returned home.

Miss Parlice Davis, of Crofton, who has been visiting her sister, Mrs. Mamie Casler, of this city, has returned home.

AD-TALK

What would you think of a salesman who reported for duty one day, lay off for two, worked a half day, went off for a week and so on without any regularity? Surely you would not expect good service from such a man. And yet some merchants hold advertising, which is simply a "salesman," up to great results when it is allowed to "work" very irregularly. The fact that advertising costs money is proof of its value. Things without cost are usually worth only their price.

Does Not Stimulate

Ayer's Sarsaparilla does not stimulate. It does not make you feel better one day, then as bad as ever the next. It is not a strong drink. No reaction after you stop using it. There is not a drop of alcohol in it. You have the steady, even gain that comes from a strong tonic and alternative. We wish you would ask your doctor about this. He knows. Trust him. Do as he says. *J. C. Ayer Co., Lowell, Mass.*

What are Ayer's Pills? Liver Pills. How long have they been sold? Nearly sixty years. Do doctors recommend them? Ask your own doctor and find out.
